Continuation of Disposition of Claims: Claims subject to restriction and/or election requirement are 1-11,16,17,19, 21-32,34-37,44-50,55-76 and 85.

DETAILED ACTION

Election/Restrictions

Since applicant has received an action on the merits for the originally presented invention, this invention has been constructively elected by original presentation for prosecution on the merits. Accordingly, claims 38-39, 41-43, 51-54 are withdrawn from consideration as being directed to a non-elected invention. See 37 CFR 1.142(b) and MPEP § 821.03.

- 1. Following the original elected invention, the amendment filed on 05/23/05 with set of newly amended and new claims 1-11, 16-17, 19, 21-32, 34-37, 44-50, 55-76, and 85 requires a species restriction hereinafter.
- 2. This application contains claims directed to the following patentably distinct species of the claimed invention:
- 3. Species I figures 3-6;
- 4. Species II- figures 7-8;
- 5. Species III figures 9-10;
- 6. Species IV figure 11;
- 7. Species V- figure 12;
- 8. Species VI- figure 13.

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, there is no generic claim.

Application/Control Number: 10/077,554

Art Unit: 2814

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.
